About Me

Hi, My name is Yarco Wong. I'm a senior web developer using PHP. For I also deal with javascript, I've learnt it also. So now I'm a fullstack for backends.

My interests are huge wide, I can also work with other buddies who know "Python, Nodejs" even "rust, c".

I have also involved in Enterprise information construction, like OA, ERP secondary development.

My latest job is the game developing in NodeJs, so I also have contacted with game industry now.

I believe lifelong learning. That's why I keep on learning myself.
