## About Me

Hi, My name is Yarco Wong (Jun Wong in Chinese). I'm a web application developer with over 7 years experiences. I've done many projects and I have my own thinkings in programming.

My interests in programmings are huge wide, I can work with other buddies who know other programming languages, including "Python, Nodejs" even "Golang, rust".

I also have interesting in Data analysis, Data visualization and AI/DL. And I've done several projects in that way.

I believe lifelong learning, the above technologies are all learnt by myself.
